Frameworks/Libraries (Basic): Flutter, Firebase, Git,

ASP.NET Tools: VS Code, Trello, GitHub

Soft Skills: Project Management, Team Collaboration, Communication, Adaptability, Problem Solving

Projects

-Safe-Space - Healthcare Mobile App

Dec 2024

Flutter, Dart, Firebase

Developed a modern cross-platform mobile application offering integrated healthcare services for humans and pets. The app enables users to consult doctors and veterinarians via telemedicine, manage health records, receive emergency assistance, and stay informed with personalized health tips and reminders. Focused on enhancing accessibility and convenience in everyday healthcare.

-Trivia

Jun 2024

Qt Framework, C++,

Developed a robust quiz system called **Trivia**, enabling users to upload and take quizzes, with automated answer checking and real-time feedback. The app allows seamless quiz creation, management, and participation, offering a user-friendly interface. Integrated tracking features for monitoring user performance and progress, improving the overall learning experience.

-Task Manager

May 2023

C++, File Handling

Built a robust command-line task management system allowing users to register/login, categorize tasks (Personal, Business, Home), and perform CRUD operations. Implemented secure user authentication and categorized data storage using structured text file handling for seamless organization.

Interests & Hobbies

- Web development with a focus on front-end tools like HTML, CSS, and JavaScript
- Exploring UI/UX design trends and wireframing tools like Figma, Cava
- Gaming with a curiosity about game development and logic
- Music
